

THE ISLAND BLUEPRINT & MAP CO'S
ATLAS MAP OF VICTORIA B.C.

POCKET EDITION

Scale - 500 Feet = 1 inch

HALF MILE CIRCLES ARE FROM CITY HALL

This map has been compiled and published in such a form as to be easily carried around in private car or delivery van.

In Use the district interested in should be located on the key plan, it can then be seen which sheet to look at to find the details required. Should the details required be on the edge of a sheet, the sheet number adjoining will be found in the margins, an overlap on each edge being allowed.

Street Index. From this any street can be located, i.e. Take Cook Street, in the index it is given as 16C., which means sheet 16 Centre. On turning up sheet 16 and looking near the centre, it can be easily found and if necessary followed its entire length from sheet to sheet with the help of the marginal notes.

Abbreviations

C. = Centre N. = North S. = South
E. = East W. = West

House Numbers. The house numbers are shown in small figures in the streets at the end of each block. Where a number of blocks run with the same numbers, they are shown every 2 or 3 blocks.

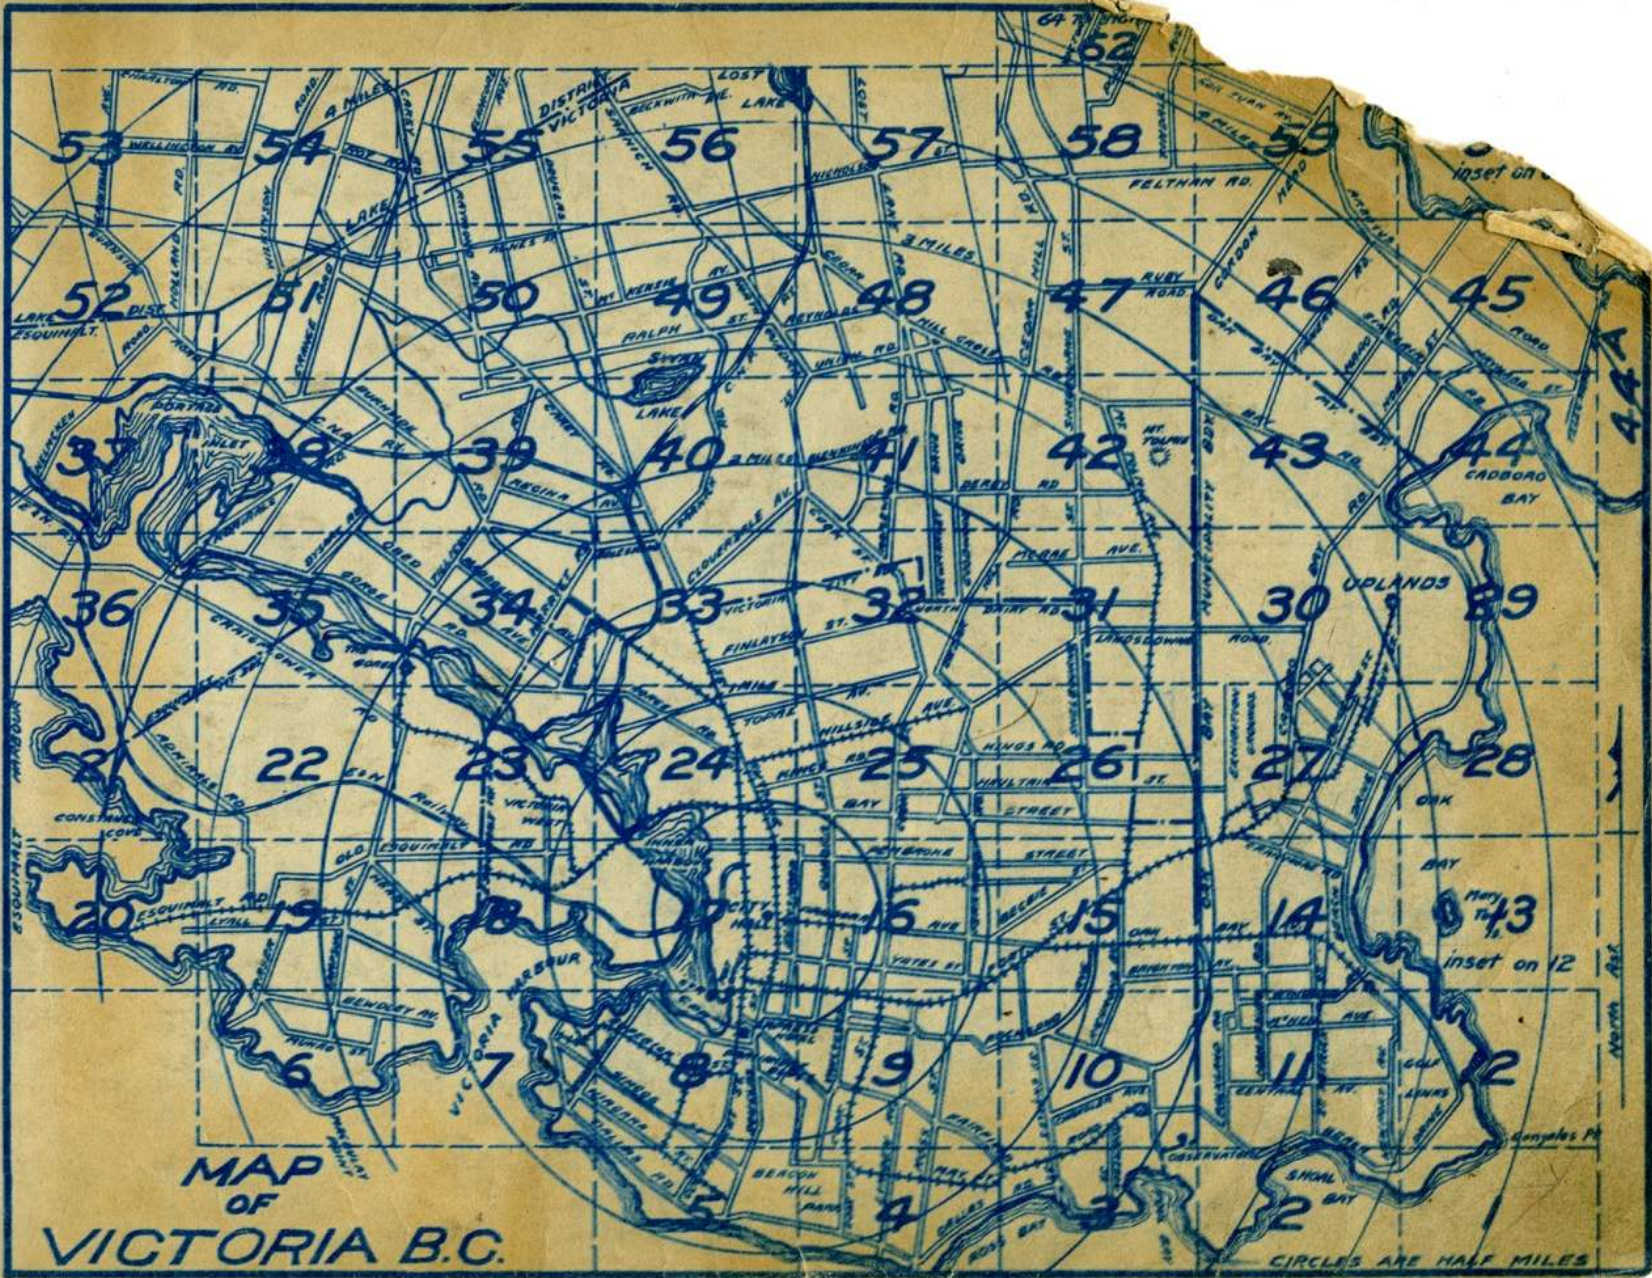

To Real Estate Agents, the use of single sheets for describing property by mail will be found very convenient, and a copy of the key plan would give the sheet location with reference to the other parts of the City.

PRICE LIST

| | |
|--------------------|---------|
| COMPLETE IN BINDER | \$12.50 |
| " " WITHOUT | \$11.50 |
| ONE SHEET | .25¢ |
| TWO SHEETS | .45¢ |
| FIVE " | \$1.00 |
