

PREPARED FOR: Council

FROM: Rianna Lachance, Director of Finance and Asset

Management and Alice San Buenaventura, Deputy

Director of Financial Services

MEETING DATE: November 12, 2024

SUBJECT: 2024 Third Quarter Budget Variance Report

RECOMMENDATION(S)

THAT the report titled "2024 Third Quarter Budget Variance Report", authored by Rianna Lachance, Director of Financial Services and Asset Management, dated November 12, 2024 be received.

EXECUTIVE SUMMARY OF REPORT

The Third Quarter Budget Variance Report attached, details the quarterly operating and capital budget variances from the Council approved financial plan.

The report provides actual results and annual forecasts. The ratio of budget expended to the end of the third quarter will vary from service to service based on planned expenditures, seasonality, and transaction timing.

The forecast compiled by staff, provide estimates for how services are expected to perform fiscally for the year based on information available to the end of the third quarter. These forecasts are informed by reviewing prior year results, planned and actual changes in activity, and an assessment of service level delivery and related funding impacts.

BACKGROUND/HISTORIC CONTEXT

On May 13, 2024, Council approved the District's 2024-2028 Five Year Financial Plan which included funding for ongoing District operations, capital expenditures, and special initiatives to advance Council Priorities. Quarterly budget variance reporting is a key control in the financial control environment.

In June of 2023, Council adopted amendments to the District's Reserves and Surplus Policy. This policy will be used to guide Council decision making in respect of budgetary surplus allocation within the financial planning process.

ANALYSIS

Overall, the District is forecasted to finish the year within spending limits. Table 1 provides third quarter budget variances at a summary level.

Table 1: Third Quarter Budget Variance Summary

	2024 Budget (\$ M's)	2024 YTD (\$ M's)	YTD %	2024 Forecast (\$ M's)	Forecas t%
Revenues	67.2	55.4	82%	66.0	98%
Expenses	54.7	35.1	64%	48.7	89%
Difference	12.5	20.3		17.3	
Add: Transfer from Reserves	50.2	0.0	0%	33.6	67%
Less: Capital Expenditures	(49.6)	(10.2)	21%	(36.1)	73%
Less: Transfers to Reserves	(13.1)	(8.1)	62%	(13.1)	100%
Total Surplus or (Deficit)	-	2.0		1.6	

The budget variance forecast for the year, based on third quarter results, is anticipated to be a

\$1.6 million surplus. The variance is anticipated throughout number of departments primarily due to salary budget variance resulting from position turnover and delayed start for some new positions.

Forecasted variances for initiatives and capital expenditures is a result of a variety of projects not yet started or are now forecasted to complete in 2025. As a result, the forecasted variance for transfers to and from reserve are adjusted to reflect the forecasted spend and carryforward. The net impact does not result in a surplus or deficit.

Attachment 1 includes detailed budget variance reporting for operating and capital budgets.

Attachment 2 includes detailed budget variance reporting for each special initiative.

Operational/Not Applicable

FINANCIAL IMPACT

While forecasted variances reasonably reflect anticipated year end results, the year end results are subject to change through the last quarter and with annual year end accounting activities.

Any surplus or deficit is the result of business activities varying from the original plan and assumptions. Variances are driven by short term or one-off experiences, which are difficult to predict on an ongoing basis. Each year work plans are revisited to incorporate this experience. Variances are not expected to reoccur on an ongoing basis.

At year end and as part of the annual financial planning process, the resulting surplus or deficit will be addressed according to the District's Reserves and Surplus Policy.
